

CapSciComm Science Tour #YoloBats

Sunday, August 6th, 2017 • 6:15~9:00 p.m.

Who soars when the sun sets and the dark night rises?

On Interstate 80 over the Yolo Causeway each summer evening, Mexican free-tailed bats emerge in droves to feed for the night. Join CapSciComm and the Yolo Basin Foundation for this family-friendly gathering, and witness this natural wonder of the Sacramento region! (RSVP required. Please see ticket instructions online.)
